About Us

U-Machi Oil & Gas Ltd. is an indigenous oil and gas company strategically positioned to support Nigeria's growing demand for reliable petroleum distribution and fuel logistics services. With an operational presence in Port Harcourt, Rivers State, we provide seamless energy solutions to industrial, commercial, and residential clients, helping businesses and communities access the petroleum products they need to operate, grow, and thrive.

Our operations span key areas of the downstream petroleum value chain, including Retail & Depot Operations, Bulk Petroleum Marketing, Distribution & Supply, and Mobile Fuel Services. Through these capabilities, we connect quality petroleum products with our customers through efficient, dependable, and customer-focused solutions, while maintaining strong standards of operational excellence, service delivery, and safety.

At U-Machi Oil & Gas, we are building more than a fuel business, we are building an integrated energy platform designed for sustainable growth and lasting impact. Through strategic expansion, innovative fuel solutions, complementary retail ventures, subsidiaries, and future franchise operations, we aim to become a trusted energy partner across Nigeria, delivering the right products, to the right customers, at the right time, safely and efficiently.

OUR VISION

To become a leading and trusted energy company in Nigeria, recognised for reliable petroleum supply, innovative fuel distribution, operational excellence and exceptional customer service.

We envision an organisation with a strong national footprint, an efficient distribution network and a diversified portfolio of energy and retail businesses that consistently creates value for customers, partners, employees and communities.

OUR MISSION

To provide reliable, accessible and quality petroleum products and energy-related services through efficient operations, innovative solutions, responsible business practices and an uncompromising commitment to safety.

We seek to simplify access to energy by bringing the right products and services closer to our customers while continuously improving the way fuel is marketed, distributed, delivered and managed.

OUR CORE VALUES

Integrity

We conduct our business with honesty, transparency and accountability, building relationships based on trust.

Safety

We place the health and safety of our people, customers, partners and communities at the centre of our operations.

Customer Commitment

We listen to our customers and continuously develop solutions that address their needs and improve their experience.

Excellence in Operations

We pursue high standards in everything we do, from product quality and service delivery to operational management.

Accountability

We take ownership of our responsibilities, decisions and results.

Our Business / Services

At U-Machi Oil & Gas Ltd., our business is built around delivering reliable, efficient, and accessible petroleum solutions across key segments of the downstream energy value chain. We combine strong retail operations, dependable bulk petroleum supply and distribution, and innovative mobile fuel solutions to meet the diverse energy requirements of our customers.

Our integrated business model enables us to serve industrial, commercial, and residential customers through solutions designed around convenience, reliability, operational efficiency, and responsible fuel management. From our retail and depot operations to bulk petroleum marketing, distribution and supply, and our mobile fuel services, we are focused on ensuring that our customers have access to the right petroleum products, where and when they need them.

Through these core business areas, U-Machi Oil & Gas continues to build a scalable and customer-focused energy platform, creating a strong foundation for sustainable growth, strategic expansion, and long-term value across Nigeria's evolving energy market.

1. Retail & Depot Operations

Our Retail & Depot Operations are designed to ensure that every U-Machi location delivers efficient, controlled, safe, and customer- focused petroleum services. Our retail operations encompass the effective management of day-to-day station activities, with particular attention to financial accountability, inventory control, personnel management, product quality, and customer experience.

As part of our retail operations, we undertake daily cash and tank reconciliation to ensure accurate tracking of sales, cash collections, fuel volumes, and inventory levels. We also monitor and reconcile transactions across various payment channels, including POS transactions, ensuring that financial and operational records remain accurate and accountable. Our operational processes further include the training, supervision, and development of personnel to ensure that employees understand established procedures, customer-service standards, safety requirements, and company policies.

We maintain stringent quality-control measures throughout the receipt, storage, handling, and dispensing of petroleum products to protect product integrity and customer confidence. We also monitor and manage internal fuel usage to ensure proper accountability and accurate record keeping. Through these integrated operational practices, U-Machi Oil & Gas strives to maintain efficient retail locations that deliver consistent service, operational transparency, product quality, and a dependable customer experience.

Retail Ventures & Gas: Our Retail Ventures & Gas initiative expands the traditional filling-station model by introducing complementary businesses that enhance customer convenience while creating additional value across our retail locations. These ventures are designed to transform U-Machi facilities into convenient, customer-oriented destinations where visitors can access a range of essential products and lifestyle services alongside their petroleum needs.

Our Mini Mart provides customers with convenient access to everyday consumer products and essential items, enhancing the overall experience of visiting our retail locations. The Haircut Studio introduces a convenient personal-grooming service within selected U-Machi locations, allowing customers to access an additional lifestyle service during their visit. Our Lubricant Store provides access to essential automotive and equipment lubricants, serving vehicle owners, fleet operators, mechanics, businesses, and other customers who require quality lubrication products for vehicle and equipment maintenance.

Together, these complementary ventures form part of U-Machi's broader strategy to develop modern, diversified, and customer-centric retail locations that go beyond conventional fuel retailing and create multiple points of value for customers.

2. Bulk Petroleum Marketing, Distribution & Supply

We provide reliable bulk petroleum marketing, distribution, and supply solutions to commercial, industrial, retail, and other high-volume customers. Our operations are focused on ensuring consistent access to quality petroleum products through efficient sourcing, flexible supply arrangements, dependable logistics, and timely delivery.

Our supply operations are supported by tanker trucks for the safe and efficient transportation and delivery of petroleum products to customer locations. This enables us to handle varying supply requirements, from individual deliveries to scheduled and recurring fuel supply arrangements, while providing customers with a dependable logistics solution tailored to their operational needs.

We also supply other filling stations with fuel at their requested volumes, allowing station operators to replenish their inventories according to their specific requirements. Whether a customer requires a particular quantity in litres for a one-time order or requires regular replenishment, we facilitate the supply and delivery of the requested volume efficiently.

Through our bulk petroleum operations, U-Machi Oil & Gas Ltd. serves as a dependable supply partner to filling stations, industrial facilities, commercial businesses, fleet operators, construction projects, and other fuel-dependent organisations, helping them maintain adequate fuel availability and uninterrupted operations.

3. Mobile Fuel Services

We provides mobile fuel delivery services designed to bring petroleum products directly to customers at their preferred locations. Our mobile fuel solution offers a convenient and efficient alternative to traditional fuel purchasing by allowing individuals, businesses and organisations to receive fuel where it is needed, reducing the need to transport vehicles, equipment, generators, or machinery to conventional filling stations.

Strategic Roadmap

Our strategic roadmap is designed to create a diversified and scalable energy business. Our long-term growth strategy is built around five interconnected pillars:

Strengthen the Core Business

We will continuously improve our retail, depot, bulk supply, distribution, and mobile fuel operations through efficiency, technology, strong customer service, and robust HSE practices.

Establish the Corporate Headquarters

We plan to establish a central corporate headquarters to coordinate group strategy, administration, finance, operations, business development, and corporate governance.

Develop Strategic Subsidiaries

We will establish specialised subsidiary companies to expand into areas such as petroleum supply, logistics, mobile fuel services, retail ventures, and other complementary energy businesses.

Franchise Operations

We will develop a structured franchise network that enables qualified partners to operate U-Machi-branded retail locations under consistent standards for quality, safety, service, and operations.

National Expansion

Our long-term goal is to build a strong national footprint connecting our headquarters, subsidiaries, depots, retail stations, mobile fuel network, and franchise operations into an integrated energy business.

Meet the MD/CEO

Uche Godswill Onyemachi

Uche Godswill Onyemachi is the Managing Director/CEO of U-Machi Oil & Gas Ltd. Under his leadership, U-Machi is positioned to respond to Nigeria's growing demand for dependable access to petroleum products while building a scalable and customer-focused energy business.

He is a dynamic Nigerian entrepreneur and investor with business interests spanning energy, transportation, fashion, cryptocurrency, and other emerging opportunities. His entrepreneurial journey began in fashion and design, where he developed his creative foundation before expanding into diverse industries and strategic investments.

In 2017–2018, Uche established himself in fashion design, followed by his entry into the cryptocurrency space in 2018 as an active investor and advocate for blockchain technology. In 2020, he expanded into transportation, growing from a modest fleet of buses into a premium mobility business that culminated in the launch of Plugluxx in South Africa in 2025, a luxury bus service focused on redefining modern travel experiences.

Driven by vision, strategic thinking, and a commitment to continuous growth, Uche continues to expand his ventures across multiple industries and markets. Through his leadership at U-Machi Oil & Gas, he is focused on developing a strong petroleum business built around operational excellence, dependable supply, innovative fuel solutions, strategic expansion, and long-term value creation for customers, partners, employees, and communities.

Health, Safety & Environment (HSE) Compliance

At U-Machi Oil & Gas Ltd., Health, Safety and Environmental responsibility is fundamental to the way we conduct our business. Our HSE approach is centred on protecting our employees, customers, contractors, visitors, business partners, surrounding communities, and the environment while ensuring that our operations are conducted responsibly and safely.

We prioritise the safe handling, storage, transportation, and dispensing of petroleum products across our operations. Through appropriate safety procedures, personnel training, use of personal protective equipment, equipment inspections, fire prevention measures, emergency preparedness, incident reporting, and continuous risk identification and mitigation, we work to maintain a safe operating environment and minimise potential hazards associated with our activities.

Environmental responsibility is also an important part of our operations. We are committed to preventing and responding appropriately to fuel spills, managing waste responsibly, reducing the risk of pollution, promoting environmental awareness, and complying with applicable environmental requirements. Our approach is designed to ensure that petroleum products are handled and transported with due consideration for the communities and environments in which we operate.

U-Machi Oil & Gas continuously strengthens its HSE culture through training, monitoring, accountability, compliance, and continuous improvement. Our commitment is simple: to conduct every operation safely and responsibly, protect the people we work with and the communities we serve, and ensure that everyone who interacts with our operations can return home safely.

Thank You!
